Jon Nafziger,
Executive Director

Friends and Partners,

Our 2020 letter ended with “Whatever 2021 brings, we will partner with families in our community and will resume home visiting when safe to do so.” Well, 2021 brought a lot, but Child Health Partnership kept its promise, and we provided services to 450 children in 283 families last year.

During the pandemic, our dedicated staff has been amazing – creative, flexible and determined to fulfill our mission. Child Health nurses and family support specialists continue to be the community resource that families trust. Our family support specialists provide parenting training and support, assistance with applications for Medicaid and other important services, and connections to resources for food, legal assistance, transportation, education, and more. Child Health nurses provide health assessments, prenatal education and care, postpartum depression screening and support, and referrals to health and dental care providers. Our staff must adapt to the needs and goals of every partner family, and use a broad range of skills to meet challenges as they arise. Child Health staff are nimble, thoughtful, and caring.

As we continue to offer both safe in-person and virtual visits to families in 2022, we are also developing a new two-year strategic plan. Board and staff are considering the future: How do we address changing demographics related to lack of affordable housing? How do we recruit the best nurses during a nationwide nursing shortage? How do we partner with local health care providers to eliminate barriers to health equity? How do we expand the diversity of our staff and board?

Each of you, our supporters and partners, are part of the answer to these challenges. We thank you for believing in our mission and helping us to accomplish it.

With warmest regards,

Elizabeth Willingham

community.**

RESPONSE TO FAMILY NEEDS DURING THE PANDEMIC

In service to families throughout the COVID-19 pandemic, Child Health staff have expanded and created new synergies with our local partners:

- **Child Health partnered with Albemarle County and the City of Charlottesville to provide more than \$43,000 in emergency cash assistance to 87 local families.**
- **Working with the Blue Ridge Area Food Bank, Child Health staff distributed summer food boxes to families, providing important nutrition during difficult times.**
- **With increased mental health needs during the pandemic, Child Health continued its in-house counseling partnership with ReadyKids.**

Thank you to our partner organizations for supporting Child Health Partnership's critical work with local families!

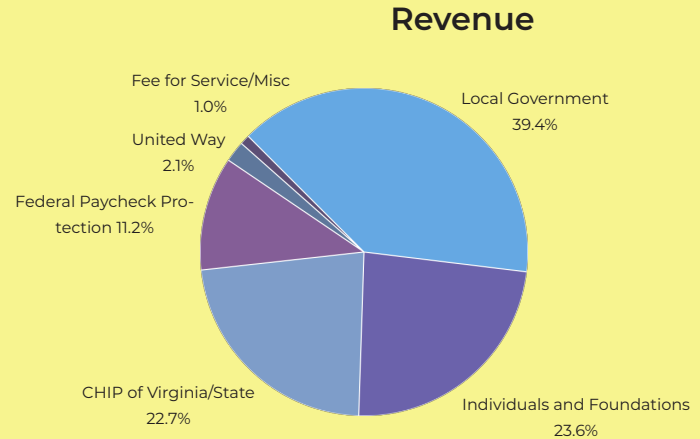

TWO

**Supporting families through a two-generation approach;
changing lives two generations at a time.**

Financial Summary for FY2021*

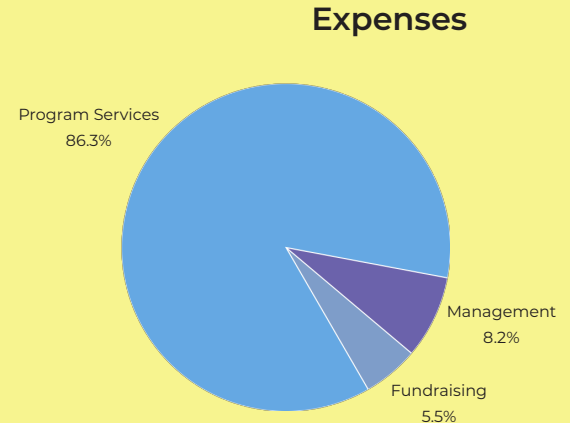

WHERE OUR MONEY COMES FROM:

39.4%	Local Government	\$765,894
23.6%	Individuals and Foundations	\$457,967
22.7%	CHIP of Virginia/State	\$441,369
11.2%	Federal Paycheck Protection	\$218,200
2.1%	United Way	\$40,000
1.0%	Fee for Service/ Miscellaneous	\$18,793
<hr/>		
Total Revenues for FY2021:		\$1,942,223

WHERE OUR MONEY GOES:

86.3%	Program Services	\$1,479,699
8.2%	Management	\$140,862
5.5%	Fundraising	\$93,454
<hr/>		
Total Expenses for FY2021:		\$1,714,015

*July 1, 2020-June 30, 2021

In the last year, Child Health staff supported the health and well-being of 450 children in 283 local families.

88

pregnant women

received prenatal case management. Families enrolled in Child Health Partnership are less likely to have low birthweight and preterm babies.

23

pregnant and/or parenting teens

received support to have healthy babies, parent well, stay in school, set goals, and postpone having more children.

70

refugee families

Our staff offers cultural sensitivity and an understanding of the impact of trauma.

Our Incredible Staff!

Partnership works!

After one year of work with Child Health Partnership, parents showed a **56%** increase in parenting knowledge, and a **38%** increase in positive parenting behaviors.

- **96%** of children have a medical home for sick and prenatal care.
- **88%** of children were up-to-date on well-child care.
- **85%** of children had a current health assessment.
- **84%** of children had a current developmental screening.
- **63%** of families had one or both parents employed.

Families enrolled for one year averaged 22 visits, in-person and virtual.

With at least two nurse and two parent educator visits, only 5% of enrolled moms had low birth weight babies (compared to 24% of moms who received fewer visits).

After one year in the program:

- The number of children with a chronic medical condition was reduced by 35%.
- The number of mothers who needed medical care but did not receive it was reduced by 35%.
- The number of families who moved more than once in the previous year was reduced by 50%.

Your contributions make amazing things happen.
